Protecting Your Buildings From A Hostile World.

RUSTPROOF YOUR METAL ROOFS . . . FOR YEARS

PRODUCTS THAT SAVE YOU TIME AND MONEY

The most complete and economical maintenance system available for metal buildings!

Republic has developed a complete system of labor saving products designed to protect both roofs and walls of metal building structures.

The ALUMANATION® coating system is easy to use, provides long-term protection, and a pleasing appearance.

You save time . . .

- applied easily by brush or spray.
- all products are single component and one coat coverage.

You save money . . .

- ALUMANATION 301 is self-priming.
- user friendly; easily applied by "in-house" or contractor crews.

Saves you worry . . .

- over 40 years of proven reliability.
- product performance warranty.

The "Man From Republic" . . .

- chosen and trained to be the foremost expert on providing the right solutions.
- reliable from start to finish and beyond; conscientious follow-up after the job is done.

What does it all mean to you?

It means you can trust us with the most valuable things on earth to you . . . *your buildings.*

EVERYTHING YOU NEED TO DO THE JOB RIGHT

Republic rustproofing and weatherproofing solutions:

ALUMANATION 301 — Our highest quality fibered aluminum coating that provides long-term rust protection.

ALUMAFLAD EMULSION — An emulsion version of ALUMANATION 301 recommended where the use of a water-based VOC compliant coating is desired.

ALUMAFLAD — A quality, standard grade, fibered aluminum coating.

REPUBLIC SURFACE CLEANER — A concentrated, water-based, industrial strength, all purpose cleaner. It is biodegradable and environmentally safe.

DURATHANE SEALANT — All purpose, single-component, polyurethane sealant used along metal seams, around fasteners, perimeter caulking and much more!

NEOPRENE FLASHING CEMENT — A trowel-grade, black, all purpose, durable sealant. Its elastomeric properties prevent it from becoming brittle in sub-zero temperatures and from melting with extreme heat.

ALUMAFLASH — A pressure sensitive, all weather sealing tape for seams and flashings.

SKYLIGHT COATING — A clear or translucent green pigmented acrylic coating for restoring and protecting fiberglass panels.

Complete product data and specifications on surface preparation and application are available by contacting your "Man From Republic".
